GET /api/v1/auth/me 200 1.217 ms - 137
A worker process has failed to exit gracefully and has been force exited. This is likely caused by tests leaking due to improper teardown
. Try running with --detectOpenHandles to find leaks. Active timers can also cause this, ensure that .unref() was called on them.
Test Suites: 5 passed, 5 total
Tests: 58 passed, 58 total
Snapshots: 0 total
Time: 2.544 s
Ran all test suites.
